

Cookie Policy

What are Cookies?

A cookie is a small data file that is widely used on websites to provide you with an improved user experience and relevant content.

What Personal Data do these Collect?

We do not use cookies to collect any personal data and we do not disclose any information obtained via cookies to any other organisation.

If you do wish to restrict/block any cookies, then this can be done through your browser settings.

If your browser settings allow cookies and you carry on using our website, we will assume this means you are agreeing to this cookie policy.

What Cookies are used on the Website?

1. **Main Website Cookie (First Party)** – This is the standard default cookie that is created when someone visits our website. They help us improve the user experience and performance of the website.
2. **Google Analytics** – We use Google Analytics to collect anonymised information about the way people use our websites to provide a better service to you. For example, how many people visited the site, what pages they visited. We do not collect personal data such as URL location.

For more information on Google Analytics, please visit their website.

Who can I contact for more information?

If you have any queries or concerns about cookies or your privacy when visiting our websites, please contact:
